## Remember Champion Celebration July 1-2

Posters containing the program for the two days of this event have been issued during the week and would indicate an ambitious effort to exceed all former celebrations held here. There will be plenty of baseball, horse racing, bucking contests and athletic events, while the carnival attractions presented by Byrnes & Baddely shows will be unique in their newness. Preparations for putting on the two days are making rapid progress and from the opening pageant to the last flight of the airplane on Tuesday there should not be an idle moment for the spectators. This will undoubtedly be the big event of the season in the celebration line.

The arrangements include a merry-go round this year which will add to the attractiveness for the younger folks and many of their elders as well. You cannot afford to miss this event in Champion.

## Institute Has Ambitious Program

Champion Women's Institute met at the home of Mrs. P. O. Sommers with seventeen present. Mrs. Bastin reported on the School Clinic and announced that the Baby Clinic will be held October 1st with Miss Davidson, P. H. N. from Queenstown, Milo to superintend.

The secretary was instructed to write a very emphatic letter to Dr. Freeze for his hard work at the School Clinic. A hearty vote of thanks was given the committee, Mesdames Bastin, Sommers and Dow.

It was decided that the W. I. decorate a float for the 1st of July celebration and two members were appointed to act on the procession committee for that day.

Efforts are being made to have Mr. Seymour of the Town Planning and Country Beautifying Bureau and Mr. Galbraith of the Good Seed Dept. to address Champion people soon. A banquet will begin this evening programme.

The card party and tea planned for last month is postponed indefinitely.

Mrs. Wise read an extra good paper on Home Economics full of sensible tips re saving time and eliminating drudgery.

Mrs. Beaubier, the official delegate to the Edmonton W. I. convention, is a financial wonder, according to the expense account she gave the Institute her trip cost 25c.

Mrs. Alcock read her Director's Report as she gave it at the same convention and Mrs. Beaubier is going to give her report of each branch of the work at the meetings set aside on our programmes for those subjects.

Owing to illness Mrs. Miffin volunteered to take her place, unfortunately Mrs. Hummel also laid up with acute inflammation of the knee joint, but Mrs. Bond "took up the torch and waved it wide" and Miss Margaret Patterson also did good work portaging the goodie Mrs. Hummel provided for before her collapsing. As a result of their combined efforts everyone fared extra sumptuously.

Champion is in the line to become the "City Beautiful" if plans as outlined by the Champion Women's Institute at the regular meeting on Tuesday are put over.

Following up a suggestion by the president that a meeting be

arranged in the near future, at which Mr. H. L. Seymour, of the Provincial Town and Rural Planning Board be asked to speak, a lively discussion brought unanimous approval. A committee on general arrangements was appointed consisting of Mesdames Wise, Ulrich and Woodhall, with Mrs. Beaubier assisting and tentative plans were considered immediately.

Awaiting the approval of Mr. Seymour the arrangements at present writing hold with a banquet at 6.30 p.m., followed by music and address on Town and Farm Planning, in which Mr. Seymour will give suggestions for proper location of buildings, both public and residential, trees, shrubs, flowers, drives etc. he will also answer questions concerning individual problems along these lines.

As an added attraction, D. H. Galbraith M. L. A. and Director of the Seed Growers Association will speak on Pure Seed.

This double decker program should appeal to every man and woman in the Champion district, and the Women's Institute solicit your attendance and co-operation in making this venture a success. The nominal sum of fifty cents per plate will be charged for the banquet; everything else free. The definite date will be announced soon.

In further explanation of the above mentioned enterprise, we quote the following paragraphs from a letter sent out by the Town Planning Commission, Edmonton:

"Town and rural planning holds the same relation to community building that architecture holds to the individual structure. It aims to eliminate waste and inefficiency by foresight and prudent control. It urges that those who have to spend money in building farms, villages and towns might as well get the fullest value of their money and that it is usually cheaper to do things right rather than wrongly. It claims that the individual cannot be expected to think in terms of the larger unit and that unrelated individual development means piecemeal and haphazard growth. It insists that things can be done and obtained by co-operative enterprise that are beyond the ability of the individual to achieve, and that more and more the upward curve of happier and better social life will be depended upon the fullest use of our co-operative power."

So defined, town and rural planning may be expected to express itself in many practical ways. The individual farmer in the location and arrangement of his buildings has a planning problem for the solution of which expert advice is most desirable. The small town or village, whose ultimate size and functions can be foreseen with

## Announcing Hand-Made Ties

by Curries

### Something to Talk About!

The most satisfactory Men's scarf today is one that is hand-made.

This means that the tie is made entirely by hand, which gives it greater elasticity in handling and more spring in tying, making the most satisfactory scarf in every way.

Naturally **Hand-Made Ties** are much more expensive to make. They take considerably more silk than ordinary machine-made ties and it is therefore only possible to make certain silks into hand-made ties.

The new stock of these has just arrived. Select one now while it is complete, for Dad.

## NOTES AND COMMENT.

Barely has crop appearances in this part of the province at least, been more satisfactory. Growth has been very rapid of late and the fields of grain are looking like another bumper yield. Prolific moisture has renewed confidence in the situation, which is reflected in better business conditions in practically every line.

The Hudson Bay railroad has never caused any stir in this part of the country, particularly because the natural outlet for the produce of this province seemed to lie in the port of Vancouver. The completion of the Bay Line to Fort Churchill and the progress of construction of docks there will turn attention to this new road which shortens the distance from the prairies to Liverpool by over a hundred miles. Both on outgoing and incoming freight the new railroad will be a factor in providing a competitive route to the world's markets.

Chautauqua has come and gone and so far as programs were concerned left a very favorable impression. The recurring necessity for securing guarantors for another year invariably introduces the question as whether too much is not handed to this organization. The guarantee is sufficient to make the trip a paying one and if that was all their might be no objection to making the necessary sacrifices in case of a failure. The arrangements, however, assure the Chautauqua of practically all the returns no matter how extensive, and only a remarkable sale of single admissions in excess of the guarantee permits the local committee to realize anything at all. At the very least there should be a reasonable revision of the contract. The local committee should have at least a fair chance in the deal as under favorable conditions a lot of effort is necessary on their part to make the Chautauqua visit a success.

## NEWS NOTES

Reports from the McMurray district in northern Alberta indicate that forest fires have swept a considerable area and that the rangers of the Dominion Forestry Service are with difficulty keeping the flames in check. Little rain has fallen in the area between McMurray and Peace River and a number of small fires have rapidly assumed serious proportions.

After July 1, 1920, any automobile being driven in Alberta with foreign license plates must carry on its windshield a sticker showing that the car bears a non-resident permit to be operated in this province. These permits which may be secured from provincial police officers, parks officials and others who come in contact with the travelling public, will

provide a definite record of the number of cars visiting the province each year and the points of origin. The permit when issued is good for three months from date of issue and must be applied for within seven days of entrance into the province.

A number of automobile licenses issued in Alberta during the first five months of 1920 exceeds by over 3,000 the total number for the year 1918. It is announced by E. Trowbridge, Deputy Provincial Secretary. Already this year over 90,000 cars and trucks have been registered as compared with 87,221 last year. A considerable increase in the consumption of gasoline is also indicated in Mr. Trowbridge's report which shows that the revenue from gasoline tax for the first five months has exceeded that of the same period in 1918 by some \$170,000.

The co-operation of farmers and others throughout the province is urged during the present month in the agricultural survey being conducted by the Dominion Bureau of Statistics. On cards which are circulated through rural schools, farmers are asked to report the number of acres of the various crops being grown this season and the number of live stock of various classes kept on their farms. It may be pointed out that the information when supplied to the government is of a confidential nature as far as the individual farmer is concerned, and that those supplying the information asked for are greatly assisting the government in compiling its agricultural statistics from which crop estimates and other reports are later issued.

Dr. R. C. Wallace, president of the University of Alberta and A. A. Carpenter, chairman of the Board of Utility Commissioners, are the Alberta members of a committee who will co-operate with Dr. Chas. Cammell, Deputy Minister of Mines, Dr. A. W. G. Wilson and C. C. Ross appointed by the Dominion Government to investigate the possible conservation of natural gas at present going to waste from oils and gas wells in this province. The committee will look into such matters as the conservation of gas by storage underground and the utilization of gas as a fuel or as a source of other materials such as oil, carbon black and various chemical products.

session of the Alberta Institute of Co-operation to be held in Lethbridge Monday to Thursday of the last week of this month.

Never before, it is safe to say, either in Alberta or any other province or country has a greater array of talent been marshalled to give information and inspiration along the lines of co-operation in the field of agriculture. Here are some of the subjects listed: "Co-operative Accounting," "Legal Aspects of Co-operation," "Social Control of Credit," "Co-operative Finance," "The Canadian Wheat Pool," "Selling Alberta's Wheat," "Progress of Livestock Marketing," "Co-operative Marketing of Wool," "The Alberta Dairy Pool," "Consumer's Co-operation in Alberta," "The Canadian Poultry Pool."

In addition to the Alberta and Canadian experts who will deal with such subjects as the above, the following speakers of note from the United States will make their contribution: Clyde L. King, of the Wharton School of Finance and Commerce, University of Pennsylvania; Prof. J. T. Horner, secretary of the Dairy Products Research Bureau, Detroit, Mich.; Dr. E. G. Nourse, chief of the Agricultural Division of the Institute of Economics, Washington, D. C.; C. B. Denny, president of the National Live Stock Producers' Association, Chicago; Messrs. E. B. Ramsey, manager, and George McFor, general sales manager of the Canadian Wheat Pools, will be the authorities giving addresses on the subject of wheat marketing.

The evenings are to be devoted to inspirational meetings at which special speakers as Dr. H. W. Wood, Premier Brownlee, Dr. Wallace and Mrs. R. B. Gunn will speak; one of the evenings being devoted to a banquet. The four days will find their social climax at a U. A. F. dance to be held at the pavilion in Henderson Park on Thursday evening.

Registrations at the nominal fee of one dollar for the entire four-day series are being received by the registrar, M. L. Freng, district agriculturist, Lethbridge. The U. A. F. locals of the Lethbridge area are each being asked to nominate one young person under 22 years of age whose expenses, including transportation and board and room for the four days, will be met from the funds of the Institute. Quotas of young people from the agricultural schools, the Women's Institute girls, C. G. I. T. and C. S. E. T. classes and Boy Scouts are also being called for on the same terms.

## The Desert Song

—BY—  
VIRGINIA MORRIS  
Copyright 1929 Warner Bros. Pictures, Inc.  
"The Desert Song" is a Warner Bros. production of the same title. It is based upon the story by Otto Harlan, Laurence Schwab, George S. Kaufman, and Frank Madden.

### CHAPTER IV

Margot Bonvalet was alone. It was late afternoon and she had just given Paul Fontaine her answer. General Briaud would marry them that night. She was allowing her self a few last moments of meditation. Leaning against a tremendous monolithic archway, she stood on the balcony and gazed at the vast desert. It awoke in her heart an infinite longing, the ache for an indescribable something that would never be fulfilled. This was not the wedding day of which she dreamed.

Her reverie was broken as a man's figure vaulted the railing behind her. She gave a startled cry, for the stranger was clad in a burmose of flaming scarlet and his face was hidden behind a protecting mask.

"Oh, you're the Red Shadow," she managed to exclaim when she had recovered her breath and had steadied herself against a chair.

He bowed gallantly. "A vote service, Mademoiselle."

Margot assumed a dignity that she did not feel. "How dare you come here?" she demanded.

"I heard you call for romance," her visitor explained. "I, too, long for romance and I would dare anything to get what I want. But what would you dare, that's what I came to find out."

The girl ignored the question which the Red Shadow had asked with gusto.

"Do you realize that one scream from me would wipe out the Red Shadow?" she asked him.

The mysterious stranger shrugged his shoulders. "You wouldn't call for romance in one breath and toss it away in the next."

The ardor of his voice grew as he leaned toward her. "Will you come with me?" he begged.

"You come, I promise not to hold you, but you will stay."

Margot had been clutching her riding crop to give her confidence. Now she raised it quickly. "With it she struck the man before her straight across his face. He buried his head in his arm to alleviate the pain and reeled against the balcony rail.

But the girl's indignation quickly cooled. She was alarmed at what she had done. "Oh, oh. I've blinded you," she cried, running over to him. But the Red Shadow had by now recovered himself.

If you want to know whether there's any difference in tires just remember that Firestone's are the outstanding choice of the big bus, truck and taxi fleets who demand the greatest safety for high speed, supreme endurance for uninterrupted service and most economy in cost per mile.

Your nearest Firestone Dealer saves you money and serves you better. See him today.

FIRESTONE TIRE & RUBBER CO.  
of Canada Limited  
Hamilton - Ontario

**Firestone TIRES**

"No, Margot, you haven't blinded me, you've just opened my eyes. Now I'm going to make you love me!"

Before she could protest she felt his arms around her, felt him crush her body against his own, felt his mouth seek hers. For a wonderful moment she yielded. But the remembrance of her promise to Paul restored her to her senses and she drew herself away from him.

General Briaud! Paul! Come quickly.

With a nimble leap the Red Shadow scaled the balcony once more and, blowing her a kiss, was gone.

A moment later she was surrounded by the officers of the garrison. In breathless sentences she told them of the outlaw's visit, of his presumptuous advances, General Briaud was inclined not to believe her. He thought that the episode was an invention of the girl's feverish imaginings, inspired perhaps by her love for the Red Shadow.

Or if it had occurred, he thought in the fashion of the east, there were too many tales of the Red Shadow, the bubble pipes from which heavy oriental tobacco is inhaled through water.

The great Sheikh who had been nursing himself with some dancing girls from Spain, dismissed them with his guest approving. He stretched out his arms, saying, "Hail, friend!"

The Red Shadow reciprocated this gesture of goodwill.

"Once more, I beg your kindness and shelter."

"Should not I protect the protector of my race? What is it this time? Have you turned down a prison or kidnapped a tax collector?"

"This time it is a little different," admitted his visitor with a smile.

"Ah, yes, to be sure, you bring two women captives—that is unusual. Many times I have offered you the hospitality of my harem but you have always been as shy about women as—

From the garden, Sid El Char entered with soldiers guiding Margot and Susan. Both of them were blindfolded but the Red Shadow immediately ordered the landladies removed from their eyes.

"Where's my Bennie?" demanded Susan, querulously.

Margot, still tugging at the ropes that bound her hands, cried "Where's that brute—that outlaw—that kidnapper!"

The Red Shadow bowed very low before her. Shek Al Ben Al ventured a suggestion of hospitality. But he addressed himself to the leader of the Rifles, "I presume you want them to get the same treatment as my women here—you want them blinded?"

The Red Shadow nodded. "By all means!"

"How dare you!" protested Margot. "As a French citizen, in the name of the republic of France, I demand to be released!"

Finally but quietly, two slaves led the women away. Susan relished the adventure as much as Margot shrunk from it. Some Rifles had brought in the captured journalist, Bennie Kirk, who was already rousing his secretary's jealousy by his not too furtive glances at the seductive Spaniards.

"Oh, Bennie!" squealed Susan, "he's taking me upstairs. But somehow, Bennie has no movement of protest."

Beats the Sun  
The 2,000,000 candle-power "Lindbergh Light" which Elmer Sperry is giving Chicago and the Midwest as a beacon for aviators will be a light beam more powerful than the sun, a tenth more powerful in fact and it will reach 500 miles.

W. N. U. 2789

The Red Shadow entered the room once more as mysteriously as before, she whipped out the gun and levelled it at him.

"Come a step nearer and I'll fire!" For a moment he said nothing but only looked at her very steadily. When he noticed that she wavered, he whispered softly, "Put down that gun!"

Quickly she raised it to take aim, but more quickly still he caught her wrist and turned it until the weapon fell to the floor. And before she could make further protest he had picked her up in his arms. In vain she fought to free herself. In vain she called for help. There was none to aid her, for every soldier in the garden was fighting grimly to keep off the attacking Rifles.

Outside, his white horse waited for him. In an instant he had thrown the girl across the saddle and had mounted. The gaily policed widely forward, far, far across the sand into the mystery of the desert night, in to the vast unknown where romance and love are found, Margot Bonvalet no longer struggled. She clung to the rider, who held her close while he spurred his horse on to a greater speed, and the world she had known was left far behind.

### CHAPTER V

The Red Shadow did not take his beautiful hostage to the Rifles' encampment in the hills. Instead, he turned his horse's head and did not take oasis in the midst of which towered the magnificent palace of Al Ben Ali, riding close at his heels came twenty of his own men who carried off Bennie and Susan as their prisoners. Their leader lifted Margot from his saddle and handed her to the care of his soldiers while he went to greet his host.

All Ben Ali received him in a great hall sumptuous with oriental luxury. His highly polished floor was inlaid with rare marbles. Low divans covered with priceless rugs invited the voluptuous ease. Within close reach of them were great brass basins heaped high with luscious fruit. Or if it had occurred, he thought in the fashion of the east, there were too many tales of the Red Shadow, the bubble pipes from which heavy oriental tobacco is inhaled through water.

The great Sheikh who had been nursing himself with some dancing girls from Spain, dismissed them with his guest approving. He stretched out his arms, saying, "Hail, friend!"

The Red Shadow reciprocated this gesture of goodwill.

"Once more, I beg your kindness and shelter."

"Should not I protect the protector of my race? What is it this time? Have you turned down a prison or kidnapped a tax collector?"

"This time it is a little different," admitted his visitor with a smile.

"Ah, yes, to be sure, you bring two women captives—that is unusual. Many times I have offered you the hospitality of my harem but you have always been as shy about women as—

From the garden, Sid El Char entered with soldiers guiding Margot and Susan. Both of them were blindfolded but the Red Shadow immediately ordered the landladies removed from their eyes.

"Where's my Bennie?" demanded Susan, querulously.

Margot, still tugging at the ropes that bound her hands, cried "Where's that brute—that outlaw—that kidnapper!"

The Red Shadow bowed very low before her. Shek Al Ben Ali ventured a suggestion of hospitality. But he addressed himself to the leader of the Rifles, "I presume you want them to get the same treatment as my women here—you want them blinded?"

The Red Shadow nodded. "By all means!"

"How dare you!" protested Margot. "As a French citizen, in the name of the republic of France, I demand to be released!"

Finally but quietly, two slaves led the women away. Susan relished the adventure as much as Margot shrunk from it. Some Rifles had brought in the captured journalist, Bennie Kirk, who was already rousing his secretary's jealousy by his not too furtive glances at the seductive Spaniards.

"Oh, Bennie!" squealed Susan, "he's taking me upstairs. But somehow, Bennie has no movement of protest."

Girl In South Africa Turns Forest Into Farm Land  
A land girl of Kenya Colony, Africa, is turning a forest into a dairy farm.

In addition to looking after her employer's cows, Miss Peggy Billson, a member of the Women's Farm and Garden Association, is hard at work clearing 367 acres of forest land, 8,600 feet high, at Molo, near the Equator, with the help of only half a dozen boys.

She writes that it is a slow job, as there is no dormant season and woods grow all the time, but she has now cleared, stumped, fenced, and planted about six acres with oats.

Since the war land women have had wonderful success as trained milkers, dairymaids, and stock women, and the demand for them steadily continues.

### Large Numbers Of Repatriates Return

1,500 Canadians Returning To Canada From United States  
During 1929, about two thousand French-Canadians will be repatriated from the New England States.

To take up farming in Quebec, Ontario and the far west of Canada, according to estimates of the Colonization Department of the Canadian National Railways.

In 1928, through movements in which the Canadian National was directly interested, 1,500 Canadians, most of them natives of Quebec, returned to Canada to go on the land.

The royal road to success would have more travellers if so many weren't lost attempting to find short cuts.

### Little Helps For This Week

"The Lord preserveth the faithful." Psalm xxxii. 23.  
Matter, to do great work for These may suit.  
Is far too quick? Thou givest what may suit.  
Some little chips to cut with care minute.

Or tint, or grave, or polish. Others stand.  
Before their quarried marble fair and grand.  
And make a life work of the great design.

Which Thou hast traced; or many, skilled, combine  
To build vast temples, gloriously planned.  
Yet take the tiny stones which I have written.

Just one by one as they were given by Thee.  
Not knowing what came next in Thy wise thought.

Set each stone by Thy master-hand of grace.  
From the mosaic as Thou wilt for me.  
And in Thy temple pavement give it place.

Francis Ridley Havergal.  
Fidelity in trifles, and an earnest seeking to please God in little matters, is a test of real devotion and love. Let your aim be to please your dear Lord perfectly in little things, and to attain a spirit of childlike simplicity and dependence.

—Jean Nicolson Groat.  
River Runs Up Hill  
A curious investigator reports that he has discovered a number of unique things in Pomerania. One of them is a river that occasionally runs up hill. The river has a fall of not quite 20 inches in the last 34 miles of its course, or only six-tenths of an inch a mile. When a strong north wind blows the current is reversed.

### A New Use For Radium

Eliminates Danger Of Fire In Rubber Factory  
Radium, priceless tool of medicine, has a new use. In a rubber factory at Leningrad, in Russia, it prevents fires. Its remarkable fire-protecting quality is due to the ability of radium to make the air around it a better conductor of electricity.

Hitherto sparks of static electricity that jump from rubber fabric passing over the factory rollers have constituted a dangerous fire hazard, since a rubber drying room is filled with inflammable vapors, says Topical Science Monthly. Now the presence of a small capsule filled with radium permits electricity to leak slowly and harmlessly from the rollers into the air, instead of accumulating a sufficient charge to produce a fat spark.

A New Word  
Among the brand new words in the language of science is "debel," a unit of efficiency in telephone transmission. It means a tenth of a "bel," which was named in honor of Alexander Graham Bell, inventor of the telephone.

## WORLD HAPPENINGS BRIEFLY TOLD

The question of the eligibility of women for appointment to the Senate of Canada is expected to be considered by the Judicial Committee of the Privy Council shortly.

The United States has communicated to the League of Nations its agreement with Canada concerning radio communication between private experimental stations.

Dr. Hugo Becker, director of the Zepplin Company, emphatically denied the trans-Atlantic dirigible that Zepplin had been sold or that he was negotiating for its sale in the United States.

The treaty between Canada and the United States designed to conserve the sockeye salmon fisheries of the Fraser River, will not be ratified by the Canadian parliament this session.

Fatally struck by a wire cable which snapped under a heavy load, Mike Hitzcock is dead at The Pass. The cable being wound in the process of leading a gravel train, probably Hitzcock's chest when it broke.

Sir Colville Barclay, British ambassador to Portugal, died in a London sanatorium following an operation. He was councillor to the embassy at Washington in 1913, and minister plenipotentiary in Washington in 1918. He was 60 years of age.

Twenty-five British boys coming out under the auspices of the department of agriculture and fisheries, under Government, were among the 174 passengers from the "Anslania" who arrived in Winnipeg over Canadian National recently.

A slim line of railway steel from Cranberry Portage, lying along toward Cold Lake, begins to stretch further into the rich mining land of Manitoba's north. Work has just begun on the Cold Lake branch, but the line is expected to be operating by September.

## IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are a real home remedy. They regulate the bowels, sweeten the stomach, banish constipation and indigestion, break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Mabel Cuddehe, Molokai, Kan., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered from colic, indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Bread 76 Years Old

A small loaf of bread, said to have been baked Good Friday, March 22, 1853, is on exhibition here. It is owned by Mrs. Eze Hough Bartlett, 98, and was baked by her mother, Mrs. Bartlett, years ago. A legend that a lost baked on Good Friday will ensure forever prompted its making and its preservation for 76 years.

A safe and sure medicine for a child troubled with worms is Mother's Own Worm Expeller.

Two convicts were talking. "You know," said one, "I took John Bunyan all his life to write a story."

"Garn," was the reply, "I took ten years to do a sentence."

## A Strange People

Russian Emigration: First Major Interesting Discovery in Siberia  
Discovery of a strange race of people who make a habit of smoking from the cradle to the grave, and who live on a steady diet of animal fat during the winter to keep themselves warm is reported by a Russian exploration party.

Known as the Udeke tribe, these people inhabit the vast virgin woodlands of coastal Siberia. They live in crude dwellings built of branches of trees and bark, and they use leaves and skins as covering.

According to the Russian explorers, the total number of the tribe is not more than 1,300. As they have no means of recording events, the history of their origin cannot be learned, but it is presumed that they were driven out of Manchuria and Mongolia several hundred years ago.

Although secluded, they are not shut off entirely from the rest of the world. Russians, Burjats and Korean farmers live in the low valleys of the rivers in which they fish, and contact with these neighbors is indicated by the finding of firearms among the Mongol tribe.

## Recipes For This Week

(By Betty Barclay)

### HONEY CORN FLAKE MUFFINS

1½ cups corn flakes.  
1½ cups Graham flour.  
2 cups white flour.  
1 tablespoonful shortening.  
2 cups milk.  
1 cup honey.

Mix melted shortening with honey and to one egg beaten lightly, then add milk. Stir in the dry ingredients which have been thoroughly mixed.

Bake in well-greased muffin tins for thirty minutes. (Will make 32 muffins.)

### SIRLOIN STEAK JULIENNE

Cut sirloin steak that is about three-quarters inch thick in three-inch squares. Roll in flour, brown both sides lightly in frying pan. Place browned squares in baking dish, sprinkle with salt and pepper lightly. Cover with tomato puree and for each piece of sirloin steak allow one teaspoonful of honey. After covering with tomato puree, add the honey. Then place a layer of onion and celery strips over the entire top, cover pan and bake slowly for two hours. Uncover and bake for about fifteen minutes in good hot oven to properly brown steak. At least four or five strips each of onion and celery should be allowed for each serving.

### Fort McMurray Salt Fields

Sir Thomas Tait of the Canadian Salt Company has just completed an examination of the salt fields at Fort McMurray with a view to exploitation.

Winnipeg is the home of upwards of 800 diversified industries which produce over \$150,000,000 worth of goods annually.

"Your wife is talking of going to France this summer. Have you any objections?"

"No, certainly not. Let her talk."

Germany took only a few hours to invade, but is taking many years to erasing.

## I'm never too tired to sleep now ~

Rest nerves make all the difference

Rest nerves make all the difference. Chewing relieves nervous tension, how the healthful cleansing action of Wrigley's refreshes the mouth and tones you up.

Wrigley's does much—costs little.

Keep Your Baby Well and Strong

A baby's health and development depend largely upon the care and food it receives. Your infant should be bathed daily and fed regularly. If you cannot nurse your baby try Eagle Brand Milk.

The foremost infant food—made from rich cow's milk and granulated sugar—especially for babies. Recommended by physicians everywhere on account of its quality and uniformity.

In this paper from time to time you will find an advertisement for Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, 140 St. Paul St. West, Montreal and they will send you, free of charge, a very helpful baby welfare book containing authoritative feeding directions and a vast amount of useful information on the care of baby. Also ask for Baby Record, a diary of baby's progress.

## Northern Wireless Station

Report Shows Cost Of Installation and Maintenance Of Eight Stations Serving Northwest

A report concerning the eight wireless stations in Alberta and in the far north, operated by the department of National Defence at Adavik, Herschel Island, Dawson, Mayo, Fort Simpson, Fort Smith, Port Resolution and Edmonton, show the cost of construction of the eight stations to have been \$156,350, and that of annual operation \$98,258.

## For Sprains and Bruises

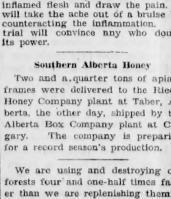

There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

## Southern Alberta Honey

Two and a quarter tons of apiary frames were delivered to the Hildebrand Company plant at Taber, Alberta, the other day, by the Alberta Box Company plant at Calgary. The company is preparing for a record season's production.

We are using and destroying our forests faster and one-half times faster than we are replenishing them.

## IN THE PANAMA CANAL

The world's largest tankship, the "C. O. Stillman" passing through the locks near Colon. The Stillman is named after Mr. C. O. Stillman, of Toronto, President of Imperial Oil Limited, her owners.

## Rush For Land Still Growing

Homesteading in Northern Alberta This Year Has Been Unprecedented

The land rush in Northern Alberta continues apace. It is reported by the Edmonton offices of the Canadian National Railways Colonization Department that approximately 1,000 new settlers with capital aggregating more than one million dollars, had gone into the Peace River country and Northern Alberta since the first of the year and up to the first week of April. It is estimated that during April alone nearly 1,000 settlers will settle in these districts.

During the period of April 1st to 15th, a total of 312 settlers with capital totalling \$170,000 went to the Peace River District. Among these was one man with \$20,000 capital, another with \$14,000 and another with \$12,000.

During the first quarter of the year 400,000 acres of government land were taken up by homesteaders in the four western provinces, an increase of nearly 100,000 acres over the same period of last year. In the period mentioned, 136 homesteads were taken in Manitoba, 994 in Saskatchewan, 1277 in Alberta, and 90 in British Columbia. Homesteading in Northern Alberta has been unprecedented during this period.

Every month so far this year has seen homesteads at the rate of 100,000 acres or more, an increase of 100,000 acres over the same period of last year. For March alone the total was 226, as compared with 160 in March, 1925.

Last year there were 2,570 homesteads filed on in the Edmonton district, an increase of 147 per cent over the previous year. There is every reason to believe that the increase noted so far this year will not only be kept up, but may even exceed that of 1925, over 1927. Even if the figures only double, it will mean that close to 7,000 homesteads will be taken up in this district alone.

## Signaller Deserted Post

Member Of Scots Guards Has Been Discharged From Army

George Stewright, the Scots Guards signaller who shattered all British military traditions by deserting his post in front of Buckingham Palace last long ago, will be a heroic figure for tourist and nurse-maid's eyes any more.

He was found guilty by a court-martial and was sentenced to 312 days' hard labour in a civil prison and to be discharged from the army with ignominy.

Stewright had pleaded that he was sleeping.

## Case Of The Noise

"What was all that noise about at your house last night?" asked one colored woman of another. "Founding like a lot of catamounts does broke loose."

"That?" Why that was nothing but 'er grandma' from de-furniture store collectin' his easy payments."

## No Rest With Asthma

Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be accepted unless relief is secured. Fortunately, there is a remedy. Dr. J. C. Ayer's Asthma Remedy has proved an asthma through-cure. Write for a trial will surely convince you.

## Professor's Wife—The War started

the first of August, 1914, didn't it? Prof. (absent-mindedly)—No, my dear, we were really married in 1912.

## SUNDAY SCHOOL LESSON

JUNE 16  
JUDAH TAKEN CAPTIVE

Golden Text: "Righteousness exalteth a nation; but is in reproach to any people."—Proverbs 14:34.  
Lesson: 2 Kings 25:1-21.  
Devotional Reading: Psalm 107: 10-16.

## Explanations and Comments

The third of Jeremiah, verses 1-3.—In the ninth year of Zedekiah's reign, 596 B.C., in the tenth month according to the Babylonian calendar, which numbered its months from the spring season, the seventh month corresponding to our January, and on the tenth day of the month, Nebuchadnezzar, King of Babylon, came with his army and besieged Jerusalem.

"The nation never forgot the month, and the day on which the armies of Chaldeans finally invested the city. It was felt as the day of the deepest gloom by the Israelites, Ezekiel 24. It has been commemorated as a fast, the Fast of Tenth, ever since in the Jewish Church."—Dean Stanley.

Nebuchadnezzar's army encamped around the city and built forts against it. The forts were probably movable towers from which missiles could be discharged over the city walls. Jerusalem held out for ten months. From Jeremiah 34, 7, we learn that a part of Nebuchadnezzar's troops were engaged in attacking Lachish and Azekah during this time, and from Jeremiah 32, 11, that the reported approach of an army from Egypt caused a great raising of the siege. The siege was resumed, and at last famine became so acute in the city that there was no bread for the people. Read the narrative of Jeremiah 37:19, Lamentations 4:10-13, 19.

The Fall of Jerusalem, verses 8, 10, 12-17.—On the seventh day of the fifth month, Nebuchadnezzar, the captain of Nebuchadnezzar's guard (literally, "chief of the executioners," the king's bodyguard to whom duties belonged), came to complete the destruction of Jerusalem. The work of devastation was thoroughly done. The gold and silver vessels, and the pillars and vessels of brass of the temple were saved to be carried to Babylon, and then the temple, on which such a passion of love had been lavished, was razed to the ground. The king's palace, and every great house in the city were burned, and the city walls were broken down.

## Canadian Chorists

Make Splendid Showing in Competition Held at New York

Americans are accustomed to Canadian winning high honours at international stock and grain shows, but a surprise was sprung when two Canadian male choirs went to New York and captured second and third places in competition with the best male choirs of the United States. These were the Ottawa Temple Choir, and the Peterboro (Ontario), Male Chorus of the United States.

These were the Ottawa Temple Choir, and the Peterboro (Ontario), Male Chorus of the United States. In the contest in which the two Canadian choirs scored second and third places, 14 choirs were entered.

## Canadian Fish For Britain

Large Supplies Of Fresh Fish To Be Shipped to Post Refrigerator Steamers

Major Hugh A. Green, former director of fish supplies for the Canadian Expeditionary Forces, is in Ottawa from England conferring with the Government in regard to the purchase by a British firm, or which the Government is now making, of large supplies of fresh fish—about 1,000 tons weekly—which will be shipped in new refrigerators by fast, refrigerator steamers plying between the Maitlands and Great Britain.

## Government To Treat Sands

Announcement is made that the Dominion Government will build a \$20,000 plant at Edmonton for the extraction of bitumen from tar sands. These sands are contained in vast deposits in the Athabasca district.

## Breadon Aero Club

The recently formed Breadon Aero Club is applying for a charter to deal in all forms of aeronautics and public airport operations.

## Nervous and Run Down

The Least Noise? Would Bother Her

"I'm H. Burton, Ottawa, Ont., writes:—Three years ago I was so nervous and run down I could hardly bear to have the children have a noise it would bother me no."

"A friend advised me to take

## UNUSUAL APRON

An unusual apron, cleverly designed, that appears more like a pretty morning gown, is found in Pattern No. 345. It is a comfortable fitting waist, which is cut in one with front panel. The side sections are gathered and dainty and tied at back. See small view Japanese pongee silk cotton crepe in floral design. Zephyr prints or plain or figured, pattern will give you the service for general wear, and will launder beautifully. Designed in small, medium and large size. The medium size requires 2½ yards of 40-inch material with 1½ yard of 18-inch contrasting. Price 25 cents in stamps or coin (coin preferred).

## MILBURN'S HEART NERVE PILLS

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling like a new man. Price 50c, a box at all druggists and mail order, or direct from receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## NEED FOR MORE RESEARCH WORK IS STRESSED

Halfax.—"Don't be content with second rate men, nor expect tremendous results in a year, but be content with the future of scientific research in Canada. If you do this, you have nothing to fear for the future of the Dominion in industry is nationhood," said Dr. H. M. Tory, president of the National Research Council, speaking before the Canadian Manufacturers' Association on the work of the council in its investigations into Canadian resources.

Outlining the unprecedented development of research into the scientific phases of industry in Britain, the United States, Japan and Italy, since the war, Dr. Tory told the manufacturers the time had come for Canada to take her place with the other nations of the world in the setting up of laboratories and the special training of scientists to conduct them. "But it will be money wasted," he said, "unless the manufacturers of Canada are alive to their responsibilities and employ them. The idea is rapidly passing that we must take our ideas from other peoples. Too many of our brilliant men are content in building up the industrial life of foreign lands."

Speaking of the work that had already been done by the Institute of Canada, Dr. Tory instanced the magazine industry, which in three years has made much, and then pointed in position simply as a sample of the world market. During the past year 105 investigations had been carried on in the development of natural resources and this work would be greatly extended in the new building, with the addition of students now being trained.

## Discuss Tariff Question

### Canadian Manufacturers' Association To Make Pronouncement

Halfax, N.S.—The manufacturers who take one view on protection for what he produces and another on what he buys not only is inconsistent but he undermines the very position he seeks to safeguard," was the opinion of President L.W. Simms at a session of the Canadian Manufacturers' Association, at which the report of the tariff committee was adopted with a motion that a committee be appointed by the president to draw up a pronouncement on tariff matters.

Canada's tariff problem was discussed by that of the British Empire, Dr. Tory said. H. M. Jacques, Montreal, on one hand were the agriculturists entitled to special consideration in their marketing scheme. Industrial development was essential. Any tariff policy must be shaped toward the goal of cheaper production and requests to the tariff committee should always be qualified to that end.

## Cannot Return To Germany

### Former Kaiser Is Barred From Fatherland For A Further Period

Berlin, Germany.—Former Kaiser Wilhelm's hope to return to Germany to spend his last days was postponed again when the Federal Council voted 62 to 4 in favor of a government bill lengthening by three years the law for the protection of the republic which would have expired soon.

The law permits the government to keep the former Kaiser out of Germany as a menace to the Republic. It was passed by the Reichstag in the summer of 1922 as an emergency measure, after the assassination of Walter Rathenau.

## His Majesty's Condition

### Is Improving

#### Bulletins Issued By Physicians Show Satisfactory Progress

Windser, England.—King George suffered no ill effects from the excitement of receiving the outgoing and incoming Prime Ministers on successive days.

Three physicians visited the monarch recently and issued a bulletin showing satisfactory progress. Complete recovery would be slow, but all keen anxiety has passed from the royal household.

#### C.N.R. Earnings

Montreal.—The Canadian National Railway gross earnings for the ten months period ending May 31, 1929, were \$7,450,000, as compared with \$7,240,000 for the corresponding period of 1928.

W. N. U. 1749

## Flames Creates Havoc In Northern Mining Town

### Craneberry Portage Suffers Heavy Loss Through Fire

The Psa, Man.—Surrounded by a wall of fire, forest rangers, miners and construction workers, railway and every available able bodied man in Craneberry Portage, little Manitoba mining town, on the shores of picturesque Lake Athapapassag, battled to save what remained of the settlement after the flames had brought destruction the day before.

It was the townsite of Craneberry Portage, constructed only a few months ago, across the railway tracks from what is now known as the Old Town, that was destroyed when flames from a forest fire swept in from the north.

Within 20 minutes, a score of dwellings, several business buildings, the railway station, and hospital, were smoldering ruins, and 200 persons out of the town's 800 population had been rendered homeless.

There were no casualties. The property loss will run into thousands of dollars and many small personal fortunes were swept away. No insurance was carried, as Craneberry was considered a fire hazard by the underwriters of companies, surrounded as it is by forest.

## Ramsay MacDonald To Lead

### Accepts King's Invitation To Form a Cabinet

London, England.—Right Hon. Ramsay MacDonald, leader of the Labor party, accepted the King's invitation to form a Cabinet to replace that of Right Hon. Stanley Baldwin, Conservative Premier, who resigned. Official announcement of the acceptance was made by Mr. Winston Churchill, where the King was ill, a few minutes after the Labor leader had called and left to go back to London.

He arrived at 11:40 a.m. with his son Alastair MacDonald and Lord Arnold.

The King's secretary, Colonel Seymour, declared he made the announcement. He remained slightly more than an hour, leaving at 12:18.

It was the second cabinet Mr. MacDonald has been called upon to form. The first was that more than five years ago when the Labor party, with the help of the Liberals, was given its first chance at the control of the British government.

## Forest Fires In Japan

### Damage To Property Already Over Three Million

Tokio.—Heavy rains over the island of Saghalien and Yokkaido have greatly increased the threat from forest fire there, although rearing fires are feared when the weather dries. Fire fighters are redoubting their efforts to keep the flames from the rail routes.

The governor-general of Saghalien reported losses on his island including 41 dead, 102 seriously injured and 1,200 houses destroyed, 4,710 homeless, and about \$3,250,000 damage to urban property. Damage to the forests had not been estimated.

### Appreciate Their Leader

Ottawa. Paying tribute to the party leadership of Hon. R. B. Bennett in parliament this session, Conservative members and senators united in a dinner tendered to him. Expressions of loyalty and appreciation for Mr. Bennett's leadership were voiced.

### Passes Railway Bill

Ottawa.—The Senate committee on railways recommended without amendment the bill authorizing the Canadian National Railway to construct terminal facilities in Montreal at an estimated cost of \$21,400,000.

## Fear Break Between China and Russia

### Trouble Arising Over Arrest of Soviet Officials in Manchuria

London, England.—Russian troops were said by a Peking dispatch to the Express, to be massing on the Manchurian frontier to prevent thousands of Chinese from fleeing to Chinese territory. The flight of the Chinese was in fear of arrest and deprivation of their belongings in retaliation for the arrest of Soviet officials in Manchuria.

Rengo news agency of Japan reports that Soviet consul general Kuznetsov, of Mukden, was under arrest at Hsiao and that intense anxiety was felt in the Harbin Soviet community spread a complex rumor between Russia and China was feared.

The strained relations between the two countries began with Chinese raid on Soviet consulates in search of documents to support charges that Communists were actively interfering in Chinese internal affairs. The raids were followed by a sharp note of protest by the Soviet virtually suspending diplomatic immunity of Chinese officials in its territory.

## REVISION OF GRAIN ACT IS RECOMMENDED

Ottawa.—Complete revision and consolidation of the Canada Grain Act at the next session of Parliament is recommended in an unanimous report tabled in the House of Commons by the Parliamentary Committee of Agriculture.

The chief recommendations contained in the report are the following:

Amendments to the Canada Grain Act to prohibit mixing in the transportation grades of red spring wheat, namely: No. 1 hard, No. 1 northern, No. 2 and No. 3.

Certain grades of red spring wheat, effective until August 1, 1930.

The return standard for all terminal elevators of all statutory and non-statutory grades of red spring wheat to be a composite sample equal to 75 per cent. of the average quality of the grade and 25 per cent. of the minimum quality of such grade at the primary inspection points. This provision would be made effective on August 1, of this year, and would apply to the next year's crop.

The board of grain commissioners to be composed of three members at present. In addition to these there will be four assistant commissioners who are to be located, one in each prairie province, and one at the head of the lakes. The commission itself would be given power to name its own headquarters.

Certain inspectors powers to be added to the board to assess loss and damage in any case where a complaint is made, with power to enforce its findings in any court of competent jurisdiction. Appeal from such may be allowed in the district or county court in which the complaint is made.

The recommendation is made that the standards boards be constituted on a different basis from that now prevailing. The producers would have one-half of the representation on the board, which would be comprised of the following:

The Board of Grain Commissioners, the chairman of the Board of Grain Appeal, the chief inspector, the chief chemist, the Dominion cerealist, one representative of the millers, four representatives of producers from Alberta, five from Saskatchewan, three from Manitoba, and one from British Columbia.

## WINS ORATORICAL CONTEST

### Roche Pinard, 18, of Montreal, Whose Eloquent Speech of "Canada Among the Nations" Won Him the Canadian Oratorical Contest at Toronto on May 22, Pinard Will Represent Canada at the International Contest in Washington.

Roche Pinard, 18, of Montreal, whose eloquent speech of "Canada Among the Nations" won him the Canadian Oratorical Contest at Toronto on May 22, Pinard will represent Canada at the international contest in Washington.

The figures were disclosed at the annual meeting of the Canadian General Council of the Association at Ottawa, which reported an increase of 34 troops and 273 leaders in the Dominion during the year. There are now 53,000 soldiers and leaders in Canada.

As an indication of the constant progress of the organization, it was stated that 31,470 scout rank and proficiency badges had been awarded in 1928-29, an increase of 9,626 over the preceding year. The report of the welfare work of the association showed that, through 39 centres, toys had been distributed to more than 50,000 children last Christmas, including 5,000 children of newly-arrived immigrants.

## Going To South America

### Tide Of Immigration Now Running In Southwesterly Direction

Rio De Janeiro, Brazil.—The tide of emigration, which for decades has flowed westward across the Atlantic to New York and other American ports has definitely set in a southwesterly direction.

European steamship companies are operating larger and faster steamers to South America, than were the previous emigrant carriers of the North Atlantic, with much better accommodation. Under these conditions Brazilians believe that their country is on the verge of a great increase in population with consequent agricultural development.

### Japanese Ship Affre

London, England.—A message to Lloyds from Yokohama said the Japanese steamer "Ugo Maru" was reported a total loss from fire with the crew and passengers believed drowned. The fire began May 31. Other Japanese dispatches said the ship was sunk with 200 Russian passengers, 280 of them women, and 43 Japanese crew members.

## Mount Vesuvius In Eruption

### Heavy Fall Of Smoke And Ashes Hangs Over Naples

Naples.—Huge clouds of smoke, laden with ashes, from the belching throat of Mount Vesuvius, hung over Naples and turned the brightness of noon into a kind of twilight.

Napoleonians were unable to see their familiar land mark which was clouded by the screen of smoke issuing from its crater.

The Associated Press correspondent visited Terracina and found conditions terrible. Families were with drawing with all their belongings and cattle. They flocked into the churches on the line of retreat, invoking Saint Gennaro and praying before shrines.

Troops took possession of villages to prevent marauding after the inhabitants had departed.

## ESTIMATES FOR DEFENCE MEET WITH OPPOSITION

### Ottawa.—Canada had denounced war as a national policy and for this reason it was inconsistent that the estimates in the department of national defence should show an increase, declared Miss Agnes Macphail, Progressive member for South Grey, in the House of Commons.

Macphail was emphatic in opposition to the national defence estimates and during the consideration of budget speakers moved an amendment to reduce the amount of the appropriation from \$10,000,000 to \$1. The amendment was defeated 56 to 15.

Macphail declared she would like to see Canadians take the stand that war should be forever abandoned. J. S. Woodsworth, Labor, Winnipeg North Centre, complained that the supplementary estimates would bring the total for the department to more than \$12,000,000. While he admitted that only a few reckless adventures or ruthless profiteers would have attempted to foster another war, a conflict was quite possible so long as conditions remained as they were. The pile up of debts of the nation constituted all the memorials Canada needed.

Mr. Woodsworth declared that as the national estimates amounted to \$20,000,000 he did not think it would be too much to ask that \$20,000,000 be spent on peace.

The money could establish a chair on international relations in every university in Canada. It could provide for the sending of three or four Canadian delegates from each province into foreign countries to study foreign affairs. It could provide for the training of young men destined to enter the unbusinesslike service. If we were to have peace we must make preparations for it and be ready to spend something on peace.

Col. A. L. Italian, minister of defence, said it was not correct to say that Canada spending \$20,000,000 on defence was spending it under the influence of her militia. As a matter of fact the vote this year for military supplies was \$11,065,000 whereas in 1924-1925 when more volte could be secured for one's money the vote for military supplies was about quarter of a million dollars higher. Canada was in a happy position geographically and at no time did the United States enter as a factor in the country's defence budget.

Canada had only one regular soldier to every 3,000 individuals. The permanent force was not even a drop in the bucket. The real defence force of the country was the non-permanent militia.

Canada was not given credit for the length to which the country had gone in disarmament. No nation spent less on warlike activities. Brigadier General J. A. Clark, Conservative, Vancouver-Burrard, asked if it were not possible that instead of using a large civilian staff for the administration of the department, it could not be recruited from among the members of the permanent force.

General J. A. Clark, Conservative, Vancouver-Burrard, asked if it were not possible that instead of using a large civilian staff for the administration of the department, it could not be recruited from among the members of the permanent force.

## WILL APPOINT TWO MORE TRADE AGENTS TO U. S.

Ottawa.—Trade and commerce secretary, however, said that the countries which buy from us. That was the slogan which Conservative members of the House of Commons urged with effect. The department of trade and commerce under review. The debate covered a very wide field. It took in the new United States tariff, the opportunities of trade with the countries of South America and methods of advertising Canada abroad.

The comparative advantages of a foreign trade and a domestic trade brought on a discussion which eventually ended in an argument on the issue. However, the speaker, pointed out by Hon. James Macdonald, minister of trade and commerce, seemed fairly satisfactory to all parties and moved through with reasonable facility.

The announcement by the minister that two new trade commissions would be being located in the United States brought the first opposition. Conservative speakers insisted that Canada was not in a position to appoint two more trade agents. Canada's trade commissioners could bring more results almost anywhere else than in the United States. They had to be sent to that fruitful field for trade expansion.

"During the past five years," said Hon. R. B. Bennett, Conservative leader, "we have seen evidence that when Canadian manufactured goods have found a market in the United States, the market has been closed to them by the United States tariff. It is either by changing the classification, or by a presidential proclamation on the tariff, that we have been able to get our goods into their market."

He declared a prescient speech by Alfred Spaulding (I.P.E.A., Red Deer), that greater efforts be made, in South America. The people of South America would not alter their basic trade provisions. That was the intention of the tariff act of the United States. It was put there to stay. The tariff act of 1922, to them by the United States tariff, to vote our time and energy to other markets."

Mr. Bennett also urged that more time and effort should be expended to cultivate home markets and part of the trade with Canadian commodities which would make possible the importation of \$1,000,000 worth of foreign goods.

The United States, he said, was not going to allow us to invade its markets. Canada should keep her own markets free from foreign competition.

## Western Canada Air Mail

### Negotiations With Various Airways Companies Still Proceeding

Ottawa, Ont.—Negotiations between the department of transport and the various airway companies of Western Canada in regard to the awarding of a contract for the carriage of mail by air from Calgary and Edmonton and intermediate cities are still proceeding, but it is considered most improbable here that action will be taken until the close of Parliament.

Officials of the department said recently that the problem presented by the desire of several companies to share in the contract appeared no nearer a solution than several weeks ago.

## Receives Appointment

### Dr. Atty. of Saskatchewan University, Accepts Post In England

Saskatoon.—Dr. Thomas Atty, professor of physics at the University of Saskatchewan for the past four years, will leave for England at the end of June. He has received the appointment of senior physicist to the Imperial Chemical Industries.

This organization, which is under the presidency of Lord Metchett, is an amalgam of U.P.A., Metchett, and the chemical industries of Great Britain. They have recently built a large research laboratory in Cheshire. Dr. Atty will carry on research in pure and applied science. Dr. Atty will be in charge of the physics research.

## To Be Presented At Court

### London, England.—Thirteen Canadian women are to be presented at Court, June 28. Those to be presented by Mrs. P. C. Larkin, wife of the Hon. P. C. Larkin, Canadian High Commissioner in London, include Mrs. J. H. Smith, Mrs. J. H. Smith, already in the managing director of the Calgary Herald.

Ceremonial planting at La Paz, Peru, in which the whole community joins in prayer for a bountiful harvest. The photograph is of a painting by J. E. Sampson, O.B.A., a Canadian artist.

defect for the Bankers for at one time of the game they were 6 runs ahead, but so many errors were made by them, that the Machine outfit had no difficulty in beating them out. Chal. Matlock and Otis Hargraves were the outstanding sluggers of the game.

The schedule for the next games are as follows:

Monday, June 17—Merchants vs. Machinists.

Tuesday, June 18—Bankers vs. Elevators.

Thursday, June 20—Merchants vs. Elevators.

Friday, June 21—Bankers vs. Machinists.

Please note. A softball meeting will be held on Monday night, June 17th, after the game at 9 o'clock in Moffatt's Hardware. Any person desiring to play will please hand in their names that evening in order to get on a team of the season. Officers for the ensuing year will be elected at this meeting.

## Women's Institute

(Continued from front page).

reasonable certainty might be made into something "rich and rare" if laid out in the first place as a harmoniously designed whole, instead of, as at present, by imposing a fragment of a gridiron upon a defenceless patch of prairie. In the large towns and cities the possibilities are so varied that I would not pretend to deal with them here. Finally, in the provision of rural parks and pleasure resorts, in the preservation of historic and scenic sites, in the safeguarding of highways against uglifications and a general defence of aesthetic values wherever they are menaced, town and rural planning may be expected to make itself an indispensable adjunct to our machine of government.

But town planning must be more than an adjunct to the machine of government. Unless it can win for itself a niche in the hearts of the people it will never bring forth its best fruits. While it must be based upon practical science and organization, it should also draw its inspiration from a popular urge towards a finer and more beautiful community life. It is because I believe that your Institute is a source and fountain head of just this kind of urge, that I have taken the liberty of asking you for your interest and sympathy in this activity and the extending of your fullest co-operation to Mr. Seymour, the Provincial Director of Town and Rural Planning.

## Strayed—Reward

From the premises of the undersigned about May 24, gray gelding, 7 yrs. old, weight about 1400 lbs. Last seen at irrigation ditch camp. Any one knowing whereabouts of same please notify M. Carlson, Carmangy who will reward any information leading to recovery. 1331

## Alberta Institute of Co-Operation

LETHBRIDGE OLDS VERMILION  
June 24th - 29th, 1929

Arrangements have been completed for the holding of three separate Institutes of Co-operation in the Province, similar to the one which proved so successful in Edmonton last year.

The meetings will be addressed by speakers who are outstanding authorities on various phases of co-operation in many parts of the continent, and special attention will be paid to the problems in co-operation affecting Alberta farmers. The co-operative marketing of wheat, livestock and dairy products, and poultry and eggs, and the consumers co-operative movement will be considered and discussed.

Special arrangements are being made for the junior section of the Institutes, and for the instruction and entertainment of the young people who will attend.

To attend the Institute nearest your home, and in order to insure accommodation, communicate at an early date with the registrar—

M. L. FRENG,  
Dist. Agricultural,  
LETHBRIDGE, Alta.

F. S. GRISDALE,  
Principal, School  
of Agriculture,  
OLDS, Alta.

W. J. ELLIOTT,  
Principal, School  
of Agriculture,  
VERMILION, Alta.

## Local and General

Give dad a tie from Joplings on Father's Day, Sunday, June 16th.

Born—On Monday, June 10th, to Mr. and Mrs. Irl Ditto, a daughter.

The Ladies' Aid will meet on Thursday, June 27th, at the home of Mrs. Stange.

Mrs. Berger, with several others in the party, is in Calgary taking in "The Desert Song."

Mrs. J. M. Moffatt was a bridge hostess on Thursday in honor of Mrs. McKibbin, of Castor.

Mr. and Mrs. O. McCumber left for the States recently where they will make their home for a time.

A number of the Masonic brethren attended the Grand Lodge meetings in Lethbridge during the week.

Mrs. G. M. Campbell and Mrs. (Dr.) Freeze were visitors in Calgary the attraction being "The Desert Song."

Born—To Mr. and Mrs. J. S. Moore (nee Miss Thelma Williamson), at Branford, Ont., on May 23rd, a son.

Marcella Hoskins' third birthday was celebrated on Wednesday by a party attended by a large number of juveniles.

Rev. H. D. Marr, Calgary, secretary of the Bible Society will preach at Elbowton next in Champion on Sunday, June 16.

Mrs. D. Watkins and Mrs. R. J. Cowell are in Calgary with their mother who is seriously ill at the home of Mrs. M. G. Clever.

Owing to circumstances which cannot be avoided, The Meat Market will be closed all day next Tuesday. Customers are kindly asked to please note.

Mr. and Mrs. R. M. Long announce the engagement of their daughter Ethel to Mr. J. Macleod, of Hanna. The wedding will take place early in July.

A letter from the Johnson sisters from Los Angeles, Cal., indicates that they are all well and enjoying their new home. They wish to be remembered to all their old time friends here.

Mr. and Mrs. J. E. Higgins and family, of Redlaw, Mrs. N. Sproule and children from the C. Y. and Mr. and Mrs. J. H. Lang of Orangeville, Ont. spent the week end with Mr. and Mrs. Alexander.

Miss Florence Ulrich is visiting in Macleod.

Give dad a tie from Joplings on Father's Day, Sunday, June 16th.

K. R. McLean R.O., of Anderson & McLean, Sight Specialists, 203 8th Ave. West, Calgary, will make his monthly visit to Champion Thursday, June 27th at the Drug Store.

Andrew Diemert was operated upon in the Holy Cross hospital in Calgary on Tuesday morning and since has made splendid progress and it is expected he will be able to return home in a few days.

Chautauqua closed in a blaze of glory on Friday night, over one hundred persons being unable to get into the community hall for the final performance and the hall was uncomfortably jammed. Arrangements were completed for their return next year.

A meeting of the Parent Teachers' Association will be held in the public school on Monday evening, June 17th, at 8 o'clock. All parents and others interested are urged to attend as the chief purpose of the meeting will be to discuss the importance of including the grade XII course in the work of the Champion High School.

Champion intermediates took the long end of a 7-6 score from Barons on Sunday, the game going ten innings. V. P. Ferguson and W. Collison were in the points for Champion. Three double plays by the Champion team was the outstanding feature of the game. The same team played at Carmangy on Tuesday, defeating that team by a score of 9-5. The batteries were B. Cole and E. Collison, Clark and Hyndman.

## Softballers On the Warpath

The softballers started off with the first game of the season last Monday night with the Merchants trimming the Elevator gang by the tune of 11-7. The game was very close till the last few innings, then the wheat kings weakened and the counter jumpers, with their superior playing took advantage of the break and scored the winning runs.

The Bankers and Machinists met on Tuesday night, the latter winning by the very close score of 12-11. It was a sad
